### **Press Release**

#### **Town of Richmond's New Website More Transparent New Site Improves Town's Information Delivery**

The Town of Richmond has unveiled its new website designed to improve transparency and streamline the way information is delivered to its residents. The website also offers new and improved features that will make doing business with the Town easier. "Enhancing the public façade of the Town by making the website more interactive and user friendly provides residents with an opportunity to have many of their needs met from the comfort of their own homes and without having to step foot in Town Hall," according to IT Advisory Committee Chair, Peter August.

The improved website also offers an opportunity for residents to be notified of significant events taking place in and around the town. A simple on-line registration enables residents to receive alerts regarding issues such as inclement weather, important town news, bid postings, job openings, calendar events and meeting agendas. "With this new website, we have greatly improved the access to the many available resources of the Town for our residents and visitors," said Council President B. Joe Reddish, III. "Our motto of being the 'Gateway to Rhode Island' takes on a new meaning with the unveiling of this new website," Reddish concluded.

If you are using a browser that causes our new website to be displayed improperly, please visit our "News" section where you can find instructions on how to rectify the issue.

For additional information contact Rob Rock, Town Administrator at 539.9000 Ext. 1
